

SFN Surgeries

11th October 2021 and 22nd November 2021

The SFN are running full-day surgeries.

SMEs can book a one-hour meeting to discuss issues, raise queries or seek guidance from our panel, consisting of a number of space and satellite industry experts.

The next surgeries will be taking place on 11th October and 22nd November – to be held virtually via Zoom.

Topics can include:

- Possible access to finance, including grant finance;
- Regulatory guidance (licensing and spectrum);
- Guidance as to business opportunities between companies, including with companies outside the space sector;
- The Connect Project, consisting of our BackonBoard Project, Mentoring and Connecting Skills; and
- FDI and growth in the UK.

Several Government departments and Ofcom are supporting this initiative.

To arrange a booking, please contact Joanne Wheeler indicating the date of the Surgery you would like to attend:
